# ALUMINIUM VENETIAN BLINDS

The Windovert **ALUMINIUM VENETIAN BLIND** remains one of the most popular blinds in South Africa.

- Effective sun and light control, at an affordable price.
- Available in 16mm, 25mm, 35mm and 50mm slats.
- 50mm blinds are available with the option of a 10mm or 25mm LADDER TAPE, in stead of the traditional LADDER STRING.
- A large range of colours and slat finishes are available, including MATT, GLOSS, WOODGRAIN, BRUSHED and PRINTED.
- Blinds with wire side guides are available, in order to secure the blind in the case of installing onto doors or slopes.
- Hold down brackets can be added upon request at no additional charge
- **50mm blinds can be MOTORIZED, to control either tilt only, or tilt and lift functionality.**

# WOODEN & TECWOOD VENETIAN BLINDS

Available in 50mm width slats only.

The Windovert **TIMBER VENETIAN BLIND** remains a premium classic blind offering, fitting in with traditional upmarket installations. Using solid timber slatting, this product maintains a unique look and feel due to the slight grain variations inherent in the product.

- The slats are made of solid timber
- Being a natural product, variations in colour, grain and texture may occur
- Our blinds meet International standards in UV stabilisation and colour fastness
- These blinds are made for light control, slight light penetration does occur between slats even when closed
- **Blinds can be MOTORISED.**

The Windovert **TECWOOD VENETIAN BLIND** has been developed to compliment our range of 50mm Venetian blinds.

- The blinds are only available in 50mm slats.
- Suitable for moist areas due to its composite material.
- It meets International standards in color fastness and heat stability. International Test Results for COLOR FASTNESS AND HEAT RESISTENCE are available.
- The maximum recommended width is 2000mm.
- Offered with the choice of 10mm or 25mm Ladder tape or Ladder String (in various colors).
- **Blinds can be MOTORISED.**

# LANTEX VENETIAN BLINDS

Available in 50mm  
width slats only.

The Windovert **LANTEX FABRIC VENETIAN BLIND** brings a totally new "SOFT LOOK" to venetian blinds.

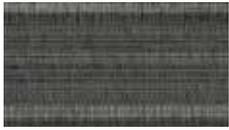

- Available in 50mm width slats only.
- Made from 100% DTY Polyester filament
- Lantex slats are available in a stunning range of colors.
- Translucent and Room Darkening options are available.
- Lantex slats are much lighter in weight than traditional venetian blinds, allowing much wider and higher blinds to be made.
- Lantex slats create a very 'soft' feel, when compared to the hard and 'cold' surface finishes of traditional venetian blinds.
- Lantex slats are FIRE RETARDANT, ANTI-STATIC, ANTI-MICROBIAL, ANTIMYCOTIC.
- Lantex slats are 100% waterproof - perfect for moist areas such as kitchens and bathrooms.
- Lantex slats are UV stabilised to ensure color fastness over a long period of time.
- Extremely hard wearing and almost impossible to break - perfect for those looking for long term returns.
- **Blinds can be MOTORIZED.**

# ROLLER BLINDS

The effortlessly slick design of the Windovert **ROLLER BLIND** creates the perfect ambiance in any room by providing privacy but still maintaining the view. Our screen fabrics are designed with quality and style in mind and are widely used to reduce glare and UV transmission, whilst still allowing just the right amount of light in.

- The traditional fabrics are available in a wide range of both translucent and block out textures and colours.
- Our fabrics are available in three main styles, in a variety of colours: transparent, light filtering and block out.
- Many of the fabrics are available in wide widths allowing bigger blinds to be made.
- **Maximum width is 3200mm, maximum height is 3500mm**, maximum overall size is dependent on the material weight.
- All materials we offer meet International standards of fade resistance and dimensional stability.
- There are gaps on each side of the blind (20mm on the control side and 15mm on the non-control side). Channels can be installed to reduce light leakage.
- Decorative valances are available as an optional extra.
- **Blinds can be MOTORIZED.**

# VERTICAL BLINDS

The Windovert **VERTICAL BLIND** is ideal for sliding doors and large windows designed to create an impression. The vertical structure of these blinds draws in the eye by accentuating the height of the window to enhance the feeling of openness within the room.

- Available in a wide range of fabrics and colours.
- A variety of textures and finishes, in Block out and Translucent fabrics.
- All our fabrics meet International standards of fade resistance and dimensional stability.
- Vanes are available in 90mm and 127mm widths.
- For additional privacy and sun protection, bigger overlaps can be provided.
- **Blinds can be MOTORIZED.**

# WOVEN BLINDS

The natural texture of the Windovert **WOVEN WOOD** and **BAMBOO BLINDS** perfectly compliment a Bohemian decor style. Providing privacy coupled with a sought after laid back feel to any room.

- Available in a wide variety of patterns and colours.
- Can be made in a Roller blind or Roman blind style.
- Blinds are made of natural materials, small irregularities in finish, stitching colour, material colour and dimensions can occur.
- Maximum width 2400mm, maximum height 3000mm.
- **Blinds can be *MOTORISED*.**

# SLIDING PANEL BLINDS

Windovert **SLIDING PANEL BLINDS** are the latest fashion in sun and light control. The panels, which slide open and closed, can be made from a variety of fabrics. Ideal for areas where you don't want blinds stacked at the top of a door or window.

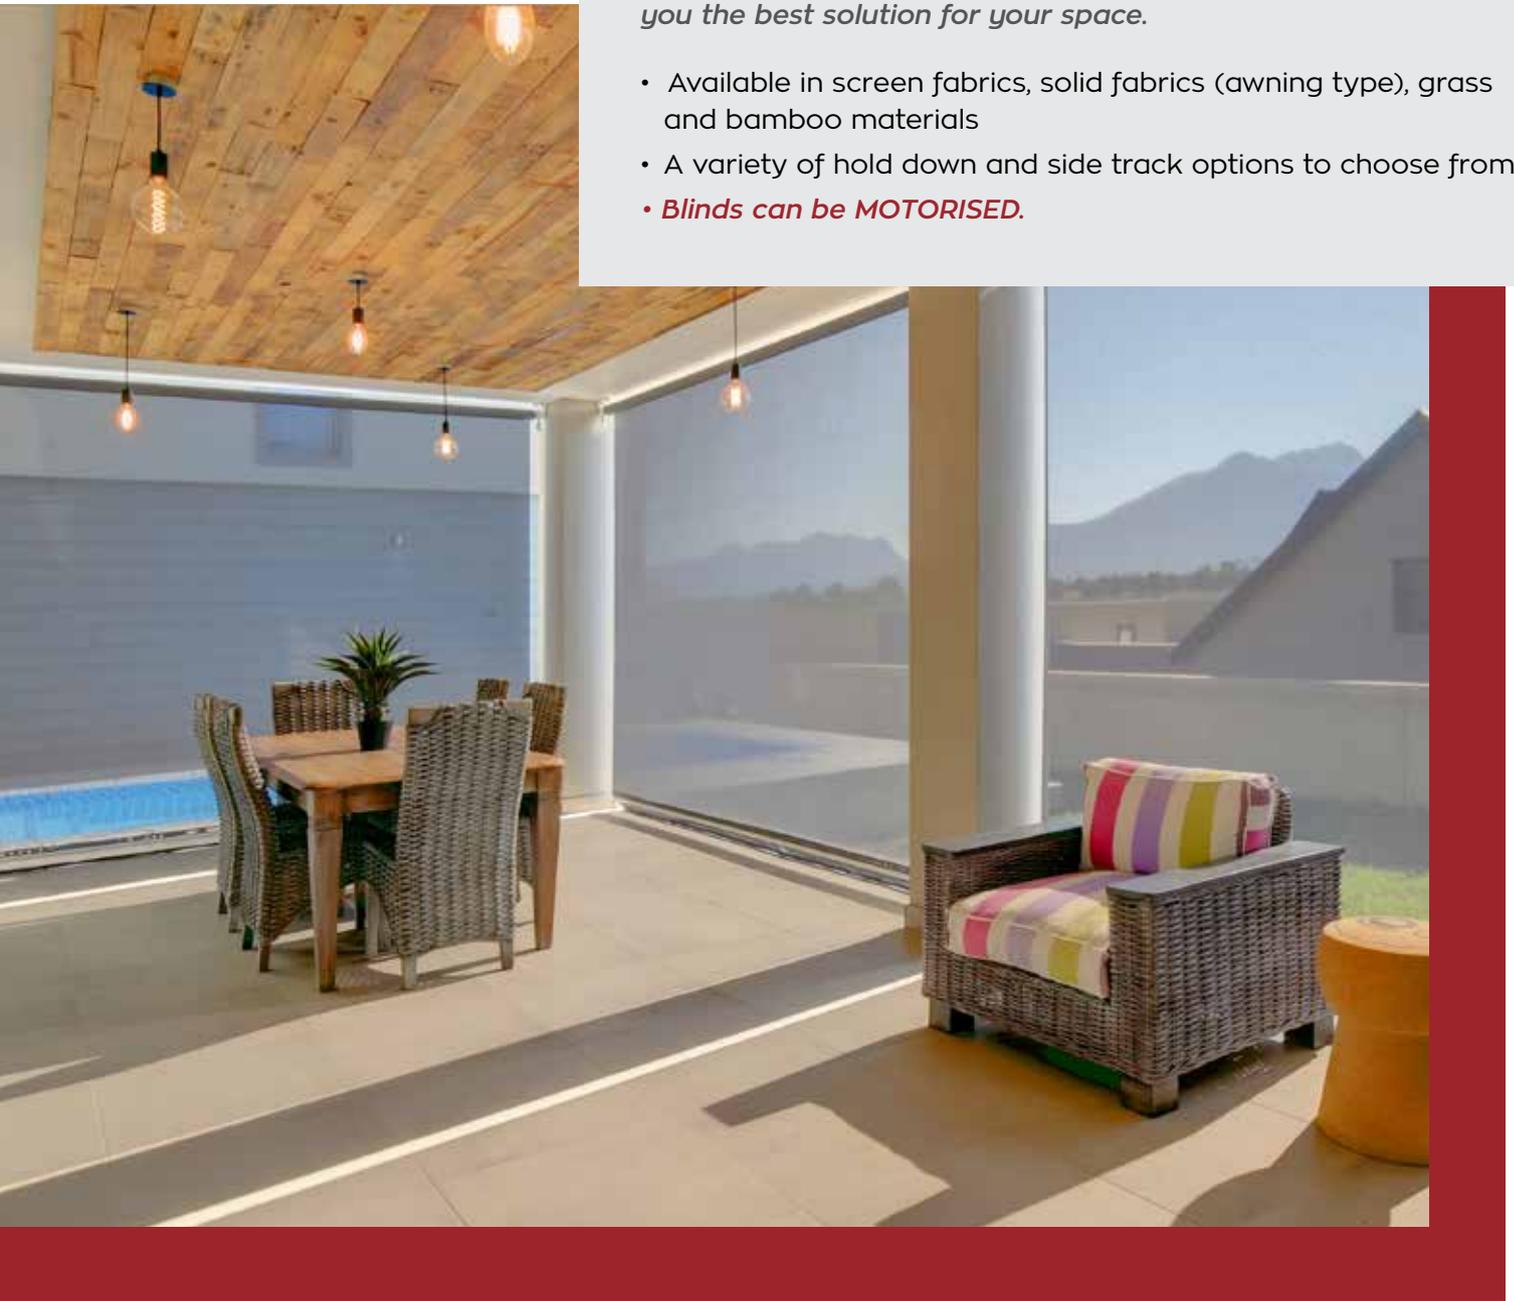

- One of the benefits of the Sliding Panels is that they can be installed to stack on the left, right or centre of a doorway or window
- The Sliding Panels are either wand or cord operated
- The standard panel overlap is 150mm. The following overlaps are available on request 50mm, 100mm, 150mm or 200mm
- Each panel has a minimum width of 600mm and a maximum width of 1200mm
- The fewer panels there are the wider the panels will be
- **Blinds can be MOTORIZED.**

# PATIO BLINDS

The Windovert **PATIO BLIND** (sometimes called an **OUTDOOR ROLLER BLIND** or **OUTDOOR DROP AWNING**) is a very popular solution for South Africans who love to live outdoors. With the huge advancements of technical screen fabrics, you are now able to enclose your patio for sun protection, whilst still enjoying your view of the outdoors. Our consultants are trained to offer you the best solution for your space.

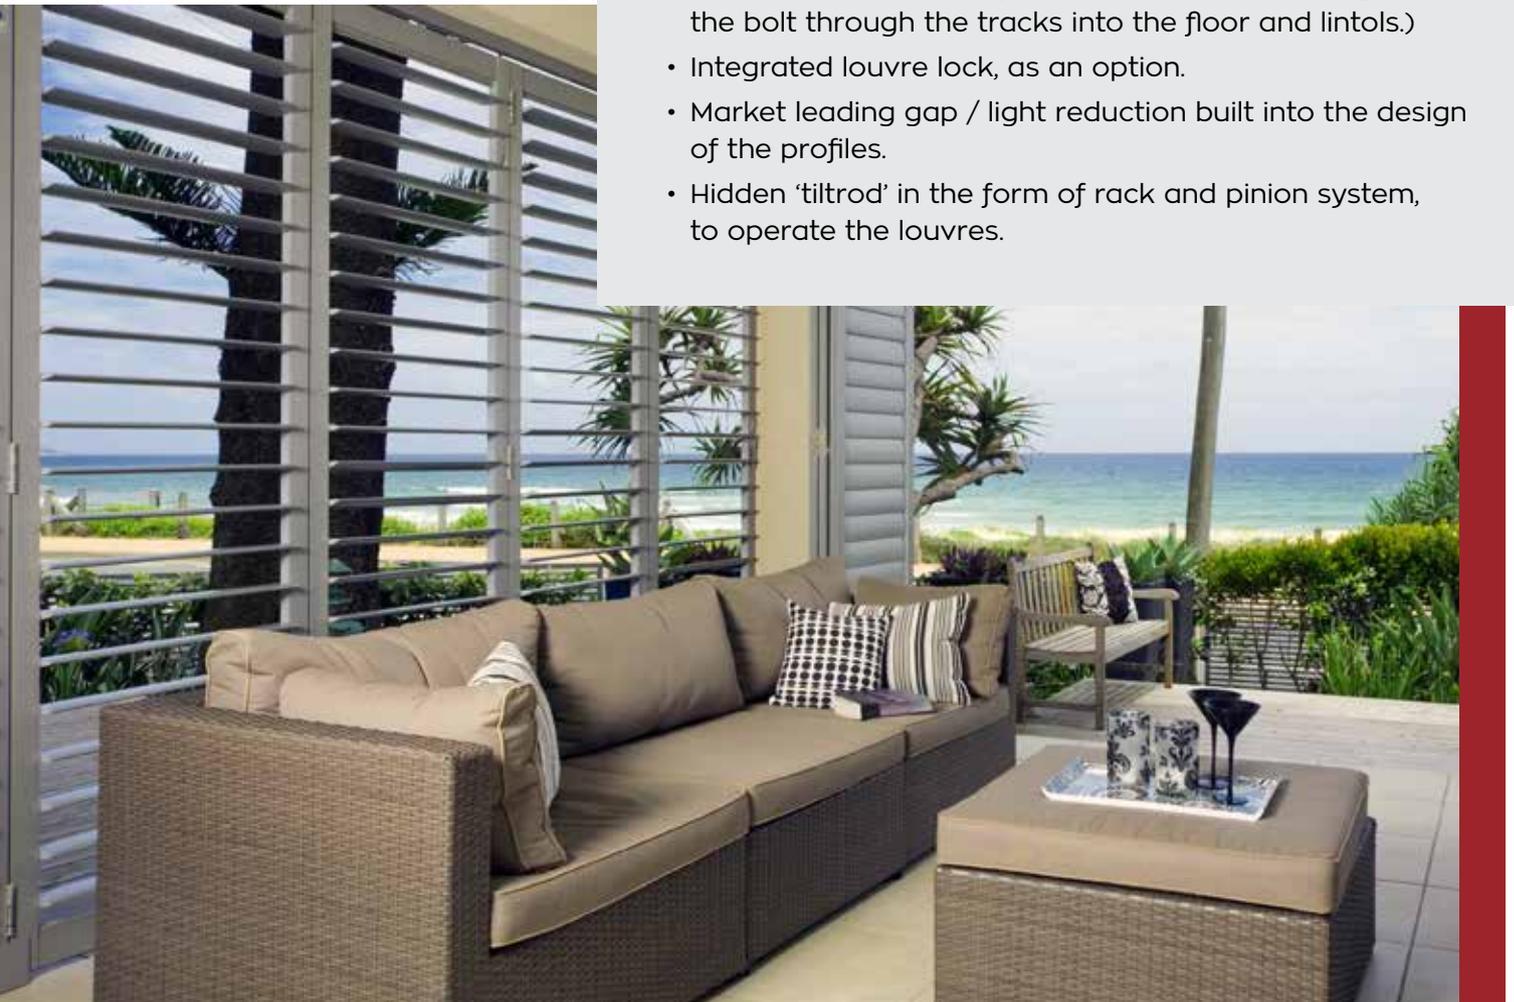

- Available in screen fabrics, solid fabrics (awning type), grass and bamboo materials
- A variety of hold down and side track options to choose from.
- **Blinds can be *MOTORISED*.**

# V-LITE ALUMINIUM SECURITY SHUTTERS

Windovert are proud to be one of the largest suppliers of **ALUMINIUM SHUTTERS**, in South Africa. These traditionally fall into **SECURITY AND NON-SECURITY** versions and there are a range of solutions ideal for Security, Light, Wind and Ventilation control. Not only do they enhance the aesthetic appeal of your home, they will also increase the value.

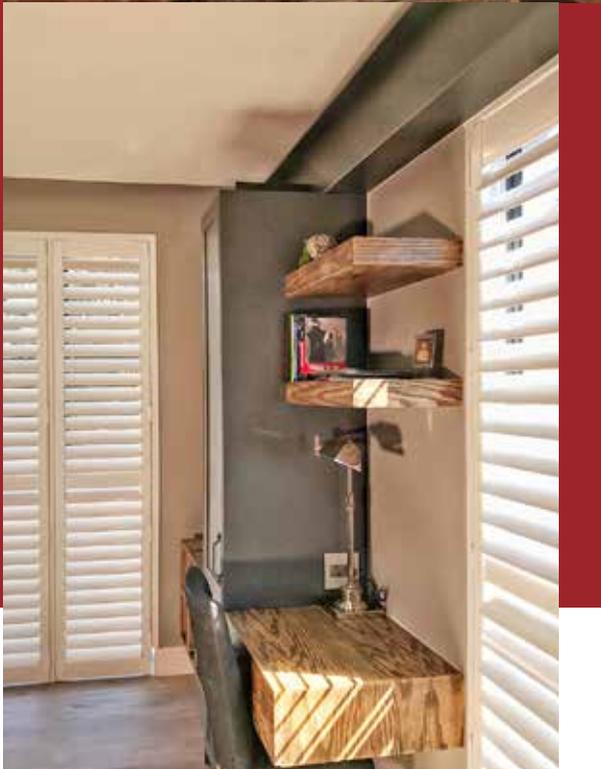

- Available in standard colors. Matt White and Matt Stone Grey.
- The lock is a single twist operation, throwing a 60mm throw bolt, both into the top track and the bottom track.. (Further Security can be added in throwing the bolt through the tracks into the floor and lintols.)
- Integrated louvre lock, as an option.
- Market leading gap / light reduction built into the design of the profiles.
- Hidden 'tiltrod' in the form of rack and pinion system, to operate the louvres.

# TIMBER & TECWOOD SHUTTERS

The Windovert **TECWOOD SHUTTER** has seen a new dawn and has become the market leading composite Shutter in South Africa. The new technically designed sliding and hinging systems are designed 100% in-house, calling upon our combined years of experience in the Shutter market. The result is a very well balanced and beautiful looking white Shutter at a very affordable price.

- Available in 89mm louvres.
- Available only in white.
- Clear-view tiltrod system.
- Beautiful selection of rebate frames available for Hinged applications.
- State of the art custom crafted Sliding Gear used on all our Bi-Fold Systems. We are confident that it is one of the best systems available in South Africa today!
- Tecwood material conforms to all International Testing Standards for colour fastness.
- Stainless Steel hinges are available as an option, should you want to choose an outdoor application.
- Stainless Steel sliding latches are standard on all our Bi-Fold Systems, and can be ordered on the Hinged Systems for extra comfort.
- Aluminium reinforced louvres are used on all panels over 600mm wide, to ensure strength and stability of the panels.

Windovert **TIMBER SHUTTERS** also known as California, Mediterranean and Lifestyle, are a classy solution to sun control and add value to any home.

- Full adjustable slats are available in 63 and 89mm widths.
- A variety of materials and colours are available, from Engineered Timbers, to Solid Timber Shutters.
- A full range of configurations are available, including Special Shapes like Bay Windows and Arches.
- **Louvres of the Shutter can be MOTORISED.**

# INSECT SCREENS

Windovert **INSECT SCREENS** allow the free flow of fresh air through open windows, whilst keeping out insects without the use of pesticides.

- Insect screens are ideal for the home, canteens, hospitals, restaurants, food preparation areas and game lodges
- Screens can be operated both horizontally and vertically
- Sometimes used to discourage entry by monkeys.

# SECURITY DOORS

The Windovert **SECURITY DOOR** is separated from the average door on the market in that it is a 100% aluminium Security Door.

Our experience is that it is the best door (both in function and looks) on the market to-day. Superbly manufactured with attention to every detail, it is the best looking security door on the market.

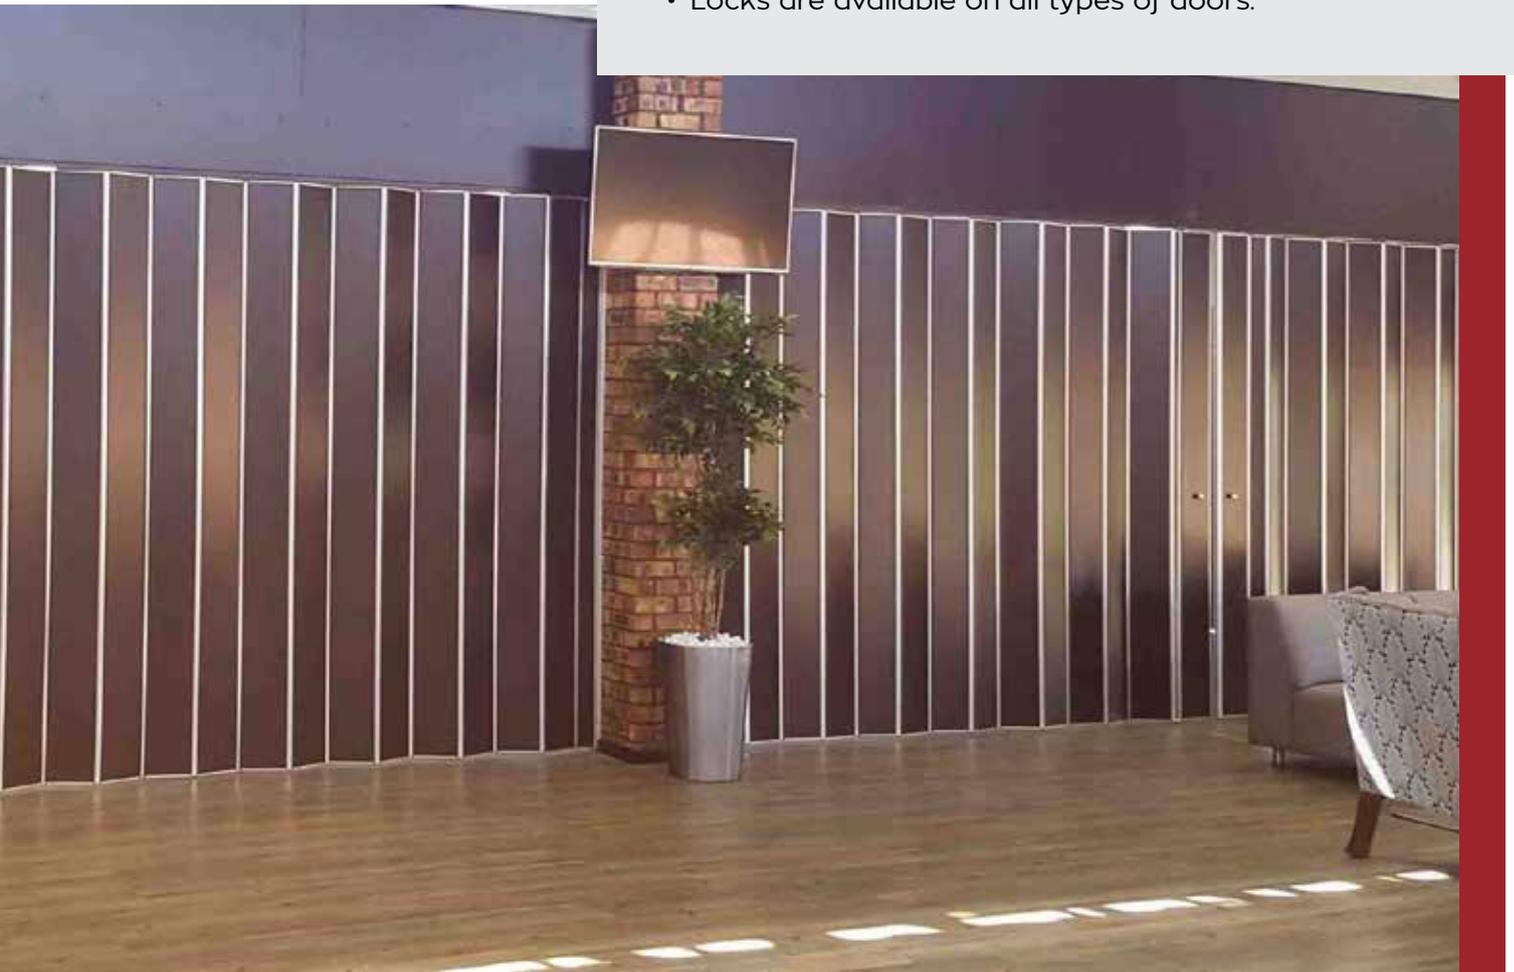

- The doors are made of aluminium and 100% rust proof parts.
- There are no rivets showing making the door as elegant as a security door can.
- The multi-point locking system makes the door totally secure.
- It glides effortlessly when opened and closed. The knob is used to lock the Shutters.

# FOLDING DOORS

*Sometimes referred to as **accordion** or **concertina doors**, we have been in the business of getting draughts out of the house and providing privacy for over 30 years.*

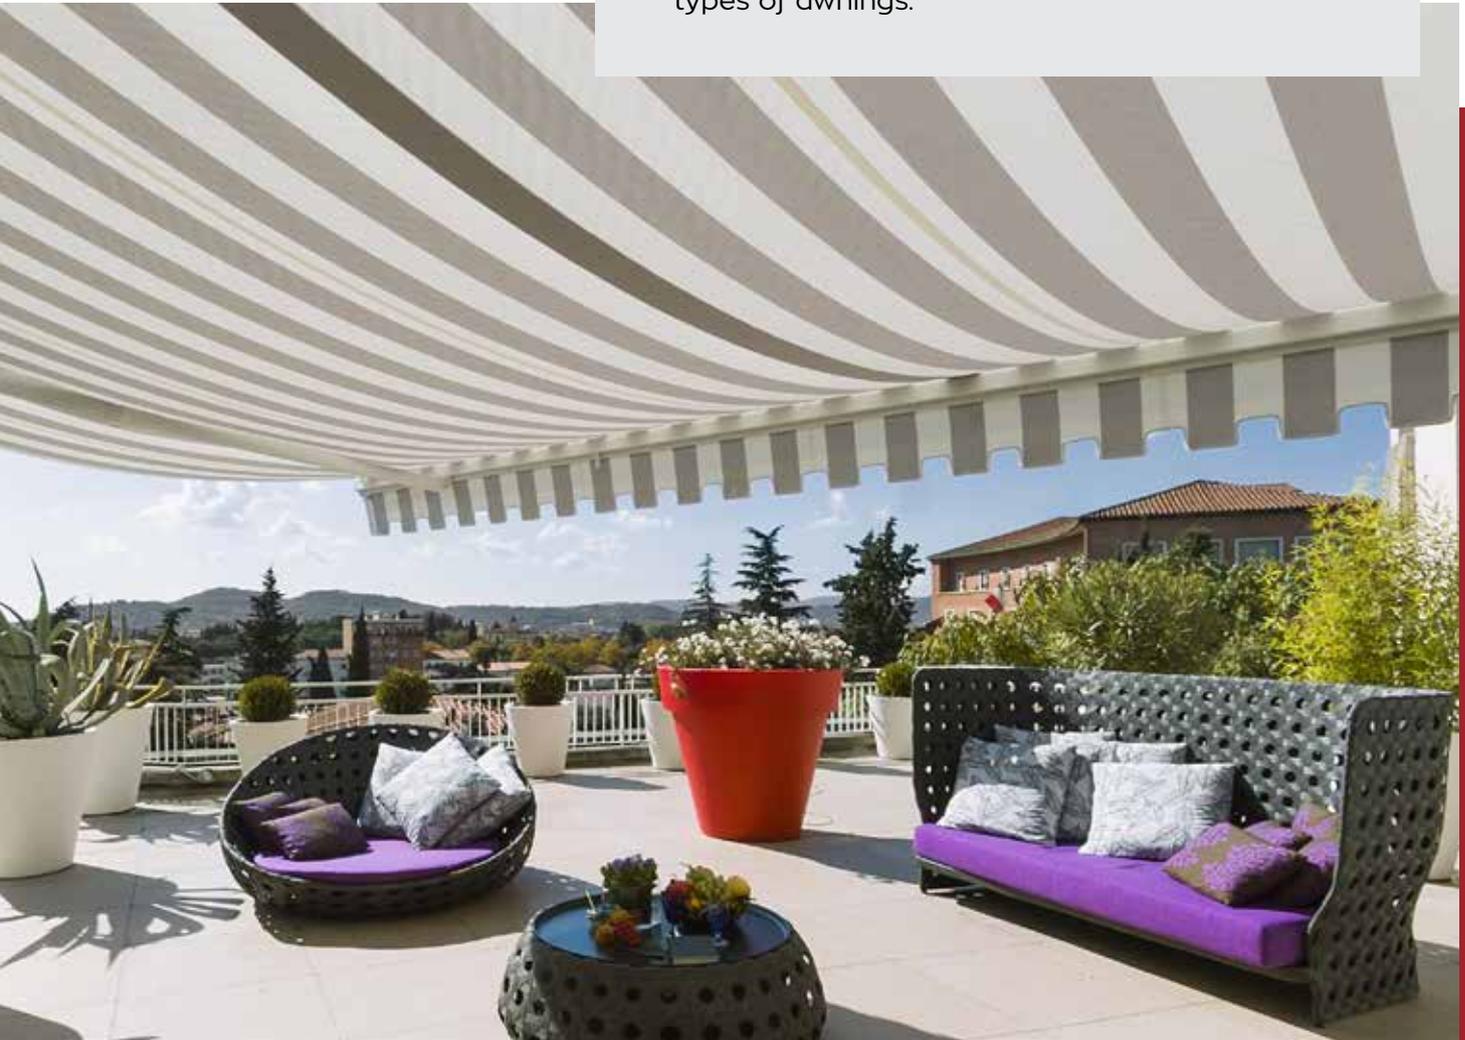

- Available in wood, vinyl or PVC.
- Doors are customised made to fit your opening.
- Vinyl doors are available with sound reducing material built into the door.
- Maximum height for wood and PVC is 2600mm. Maximum height for vinyl is 4500mm. There are theoretically no maximums on width.
- Locks are available on all types of doors.

# AWNINGS

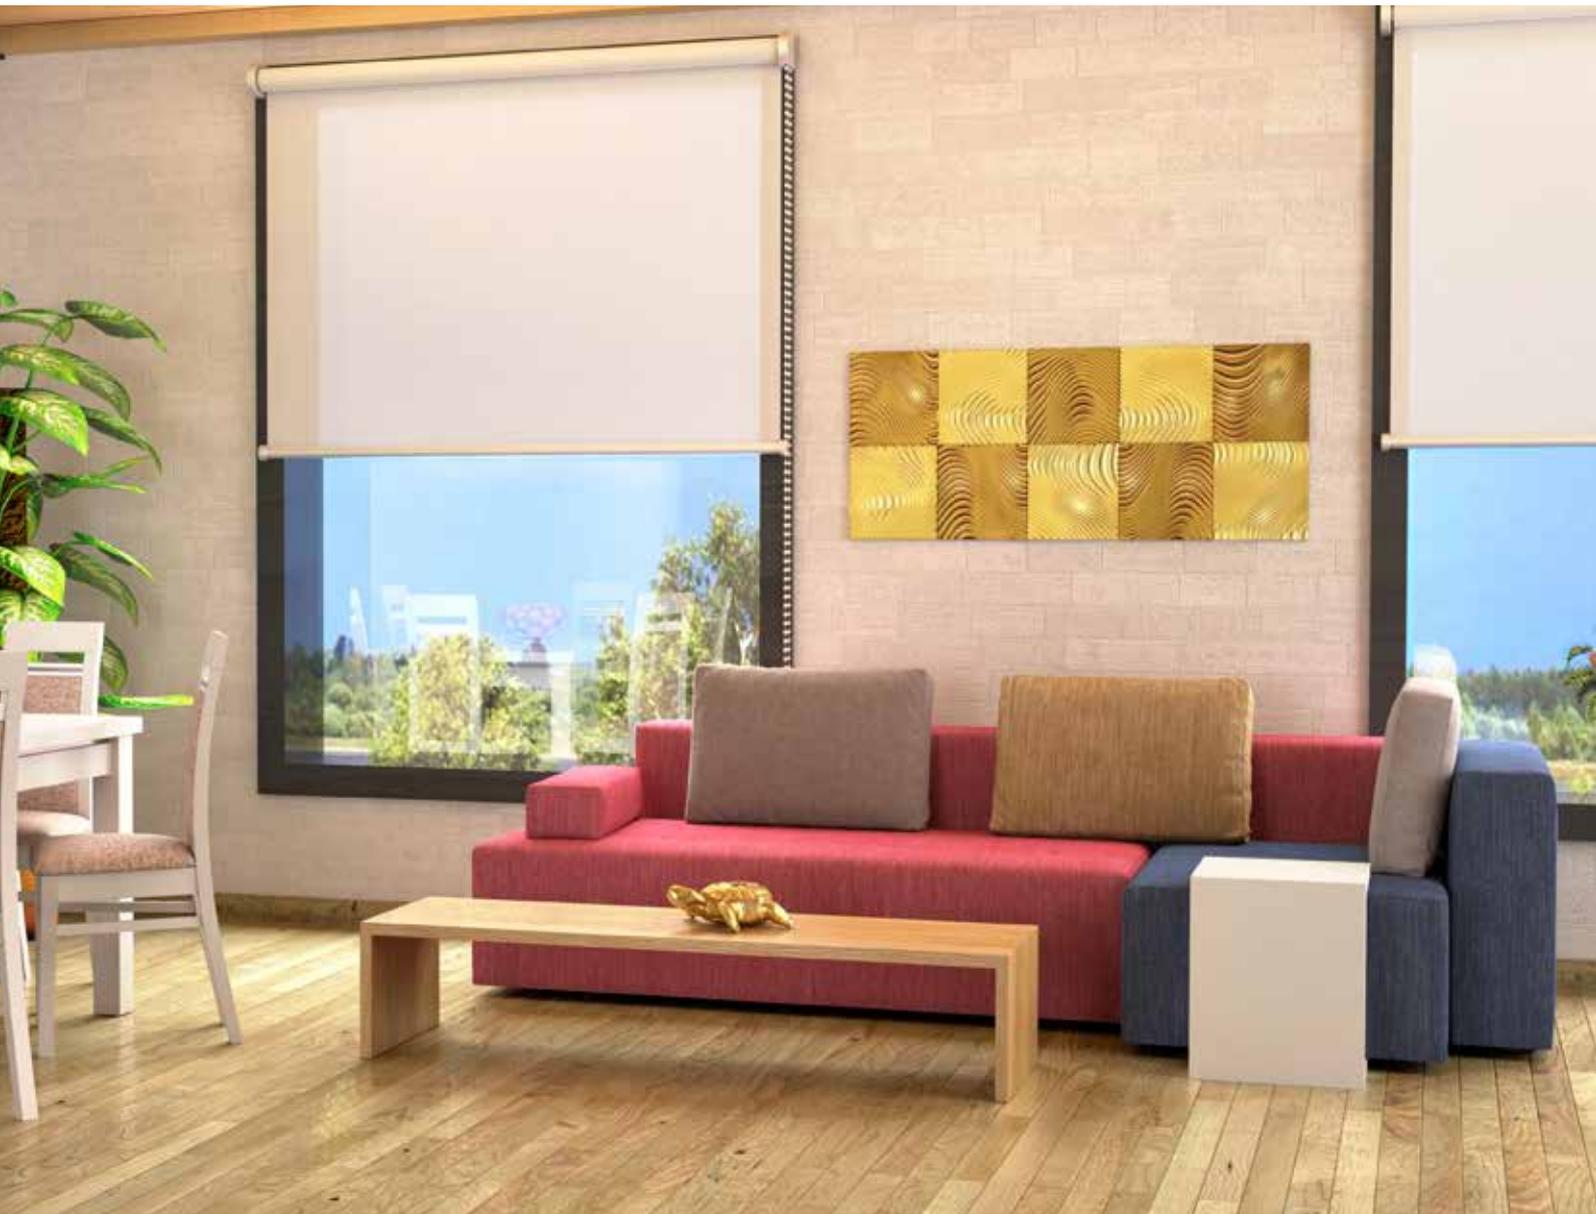

*There are many types of awnings available.  
The gallery will show the different types.*

- Drop down awnings in solid or screen materials. PVC windows can be incorporated into these awnings.
- Fold arm awnings which open out as and when required.
- Various types of aluminium awnings are available.
- Please note that not all our Franchisees do all types of awnings.
