NOTICE OF A SECTION 24G ENVIRONMENTAL BASIC ASSESSMENT AND ENVIRONMENTAL MANAGEMENT PROGRAMME

SECTION 24G APPLICATION FOR RETROACTIVE ENVIRONMENTAL AUTHORISATION FOR UNLAWFUL CLEARANCE OF INDIGENOUS VEGETATION ON PORTION 60 OF FARM 440 ROODEFONTEIN, BITOU MUNICIPALITY IN THE WESTERN CAPE

Notice is hereby given in terms of the Environmental Impact Assessment (EIA) Regulations published under Government Notice Nos. R324 to R327 of 7 April 2017, promulgated in terms of section 24(5) of the National Environmental Management Act (Act No. 107 of 1998), as amended, that Mr Bray has undertaken listed activities without the required environmental authorisation on Portion 60 of Farm 440 Roodefontein, Bitou Municipality, Western Cape, and intends to submit an application in terms of section 24G for retroactive environmental authorisation for the unauthorised clearance of approximately 25 ha of indigenous vegetation.

LISTED ACTIVITIES TRIGGERED

LISTING NOTICE 2 (GN R.325 of 2017)

- Activity 15 - The clearance of an area of 20 ha or more of indigenous vegetation has occurred without environmental authorisation.

DESCRIPTION OF THE UNAUTHORISED ACTIVITY

The activity comprises the unlawful clearance of indigenous vegetation on Portion 60 of Farm 440 Roodefontein, within the Bitou Municipality in the Western Cape. The site occurs within a rural landscape context and the clearance has resulted in the transformation or disturbance of indigenous vegetation and associated habitat.

The unauthorised activity includes

- Clearance, removal or disturbance of indigenous vegetation over an estimated area of approximately 25 ha.
- Transformation of natural or semi-natural habitat, including potential loss of ecological connectivity and habitat structure.
- Disturbance of soil surfaces associated with vegetation removal, access, movement of machinery or associated land preparation activities.
- Potential alteration of surface water movement, stormwater runoff patterns, erosion risk and aquatic ecological processes, particularly where drainage lines, wetlands, seepage areas or watercourses may be present or indirectly affected
- Potential establishment or spread of alien and invasive plant species within cleared or disturbed areas.
- Potential changes to fire behaviour, fuel loads and fire risk due to vegetation removal, drying of cleared material, edge effects and subsequent alien vegetation invasion
- Potential loss of biodiversity, indigenous vegetation, habitat for fauna, seed banks and ecological function, as well as possible impacts on any species of conservation concern that may occur within or adjacent to the affected area.

The retrospective application process will assess the environmental impacts associated with the unauthorised clearance, including vegetation and habitat loss, biodiversity impacts, aquatic process impacts, erosion and sedimentation, alien and invasive plant spread, fire risk, landscape character, rehabilitation requirements and any further remedial measures required by the competent authority.

The intention of the application is to regularise the unauthorised listed activity through the relevant environmental authorisation process, or alternatively to inform appropriate remedial, rehabilitation, management or enforcement measures as may be required by the competent authority.

PUBLIC PARTICIPATION

Interested and Affected Parties (I&APs) are invited to register and submit written comments on the proposed section 24G application as part of the environmental assessment process by contacting:
